Pharmacy Products from HCT

HCT

Proudly Providing Pharmacy
Solutions for Over 30 Years

HCT Products Promote Efficiency and Aseptic Technique

HCT is pleased to have partnered with leading pharmacy companies that align with our value based model. Please contact us to learn more about how our portfolio is delivering exceptional clinical outcomes and providing cost savings.

Talk to your sales rep about product programs and availability.

Table of Contents

HCT Tamper Evident Products Increase Security and Value!

Tamper evident caps and port clamps from HCT ensure product integrity from the moment the drug leaves the PEC until it is administered by clinicians. Show that your facility takes security seriously as these products increase your accreditation and provide significant value.

Hospitals and facilities bear the cost of diverted drugs, and the government can fine up to **$4M** for inadequate safeguards. Reduce the risk of being compromised either accidentally or intentionally.

Overall Pros of HCT Tamper Evident Syringe Caps & Port Clamps:

- Active, low-cost deterrent to diversion

- Easy to use

- Provides a physical barrier to the opportunity for misuse while enhancing medication safety

- Different color caps allow the pharmacy to color-code by drug classes, processes, or however they choose

- Reduces risk of contamination, infection, and incorrect dosing for patient

- Ideal for the majority of hospitals continuing to implement drug awareness initiatives

- Reduces waste & associated cost

- Simple to apply

- Streamlines processes while supporting consistent patient care

- Not required by the DEA, but strengthens and supplements DEA and USP guidelines

- Increases patient safety by preventing leakage and ensuring they receive proper dosage

- Strengthens ‹797› compliance

The Benefits of Tamper Evident Caps

- Simply twists onto the syringe
- Syringes with intact caps may be returned to the pharmacy
- Maintains aseptic technique and saves time when compounding several syringes

HCT IV Bag Offerings

Durable, single-use IV bags offer superior performance and cost savings. Avoid the risk of punctures or leaks with the EVA (Ethylene Vinyl Acetate) bag options.

HCT offers **better pricing** and your sales rep can provide samples upon request.

Additional Options Available with Minimum Quantity Agreements
Talk to your sales rep about product programs and availability

IV Bag Highlights:

- Promotes cost savings
- Transparent for improved admixture inspection
- Sizes from 50 mL to 4000 mL
- Durable & flexible
- Practical and sturdy carrying handles

- Port for safe medication injection through synthetic septum cap
- Bag spike adapter for secure connection to infusion set

EVA IV Bags

EVA IV Bag Benefits:

- Made with EVA (ethylene vinyl acetate)
- 100% PVC-, DEHP-, and latex-free
- Increased flexibility and resistance reduces risk of punctures or leaks
- Luer lock adapter for easy filling and infusing

BD Syringe Information

HCT's custom bulk packed BD Syringe trays are designed for high volume compounders. All syringes are laid unidirectionally in each tray, multiple trays are packaged in a poly overwrap and sterilized to ensure all contents inside the poly bag are sterile including the trays themselves. This packaging configuration allows for these syringes to move through different ISO classes in a highly-efficient way, reducing labor and sanitization materials.

- An additional AQL inspection is taken of the bulk non-sterile syringes including visual verification of any printing errors in the syringe graduations. It also includes visual inspection of contamination on the syringes, such as visible particles on the surfaces of the syringes.

- An additional wipe-down occurs upon receiving the bulk syringes in the bulk poly bags to remove particles and other materials.

- A daily visual inspection occurs dedicated to identifying foreign particles within the Cleanroom setting.

Example of 5 Trays per Outer Bag

Packaging Summary

Syringe Material Information:

Barrels, Plunger Rods, Tip Shields: Polypropylene
Stopper: Synthetic Elastomer
Lubricant: Silicone

Syringe Tray Information:

All syringes oriented the same direction inside tray.

Tray Material: High Impact Polystyrene
Tray Lid Material: Coated Tyvek for breathable easy peel
Bag Material: 13" x 24" 4mil Polyethylene with 3" Tyvek header

Sterilization and Shelf Life:

**Modality:** Ethylene Oxide Sterilization following EN ISO11135-1. ETO residues are within applicable regulations
Shelf Life: 3 years

QI Medical Surface/Fingertip Testing

QI Medical EnviroTest™

- Ideal for use in critical surface and gloved fingertip sampling to meet USP ‹797› requirements. Unique pedestal cap and hinged paddle
- Stores at room temperature with long shelf life without refrigeration
- Log sheet & gummed labels included

QI MEDICAL INC

EnviroTest™ TSA (trypticase soy agar) Growth Media Paddles

	Order No.	Description	Shelf Life/Months	Qty
	ET1000	Double sided TSA (trypticase soy agar) growth media paddles for surface, air, or glove fingertip sampling, formulated to inactivate many antimicrobial compounds	12	10 Units/CS
	ET3000	Double sided MEA (malt extract agar) growth media paddles for surface, air, or glove fingertip sampling, formulated to inactivate many antimicrobial compounds with added antibiotics to prevent bacterial overgrowth	12	10 Units/CS

GroMed® Plates - Formulated with USP required TSA with Poly 80 & Lecithin

	Order No.	Description	Shelf Life/Months	Qty
	GM0601	60mm raised (convex) surface contact plate (Shelf stable between 2-25°C)	4	10/Sleeve
	GM0901	90mm dish (concave) settling plate (Shelf stable between 2-25°C)	6	10/Sleeve

GroMed™ Incubators - Lab Cell Culture Incubator for Pharmacy or Lab Use

	Order No.	Description	Qty
	QL10-140	Incubator 13"Wx11"Dx15"H, 3 shelves, dial thermometer	1/CS
	QL12-140	Large incubator 19"Wx13"Dx21"H, 3 shelves, dial thermometer	1/CS

*Shelf life is based on the date of manufacture.

GroMed™ Growth Media, Test Kits, Vials, & More

QI MEDICAL

Order No.	Description	Shelf Life/Months	Qty
GM0030	TSB Growth media, 3mL of standard strength in glass ampules	24	20 Ampules/CS
GM0100	TSB Growth media, 10mL tube, screw cap and needle access port	24	20 Tubes/CS
GM0101	FTM Growth media, 10mL tube, screw cap and needle access port	12	20 Tubes/CS
GM0200	TSB Growth media, 20mL vial, needle/spike septum	24	20 Vials/CS

GM0203	Fluid D, 20mL vial, needle/spike septum	12	20 Vials/CS
GM0252	TSB Growth media, 25mL vial, 2X, needle septum	24	10 Vials/CS
GM1400	TSB Growth media, 100mL bag with needle access port and spike port	24	10 Bags/CS
GM1420	TSB Growth media, 100mL bag with needle access port and spike port	24	10 Bags/CS
GM1500	TSB Growth media, 100mL bag with Male Luer Lock port and spike port	24	10 Bags/CS
GM2000	TSB Growth media, 100mL vial with septum for needle or dispensing pin access	24	10 Vials/CS

*Shelf life is based on the date of manufacture.

QI Medical GroMed™ Aseptic Technique Training Aids

Order No.	Description	Shelf Life/Months	Qty
GM2001	FTM Growth media, 100mL vial with septum for needle or dispensing pin access	24	10 Vials/CS
GM3000	Soybean-Casein Digest Media, approximately 3 grams of nonsterile powder in foil pouch, makes 100mL of TSB media	48	20 Pouches/CS
GM4000	PDA Potato dextrose agar, 10mL tubes, test for fungal contamination	24	20 Tubes/CS
GM5000	TSB Growth media, 500mL bag, 1X strength, breakaway covered needle access port and spike port	24	10 Bags/CS
GM5500	TSB Growth media, 1L bag with needle access port and spike port	24	5 Bags/CS
GM5900	TSB Growth media, 4L bag with needle access port and spike port	24	2 Bags/CS
GM6005	5cc TSB Growth media in 12cc luer, lock syringe	12	10 Syringes/CS
GM6105	5cc FTM (Fluid Thioglycollate) Growth Media in 12cc luer lock syringe	24	10 Syringes/CS
GM7020	PATT™, Personal Aseptic Technique test kit, 20mL vials, 100mL partially filled minibags, test procedure and results log	24	5/Vials - 5 Bags
GM7030	PATT2™, Personal Aseptic Technique test kit, 3mL ampules, 20mL vials, 100mL partially filled minibags, test procedure and results log	24	5 Ampules 5 Vials - 5 Bags
EV0200	20mL sterile empty vial for use in aseptic technique tests. Not for patient use	36	20 Vials/CS
EV2000	100mL sterile empty vial for use in aseptic technique tests. Not for patient use	36	10 Vials/CS

*Shelf life is based on the date of manufacture.

QI Medical Contamination Testers

QI MEDICAL INC

TuffTest2™ System - Aliquot Test for Emulsions and Suspensions			
Order No.	**Description**	**Shelf Life/Months**	**Qty**
GM8100	TuffTest2™ contamination tester, 100mL TSB with TSA in sterile plastic bottle, needle access port	12	4 Testers/CS
GM8101	TuffTest2™ contamination tester, 100ml FTM with Clostridial agar in sterile plastic bottle, needle access port	12	4 Testers/CS

QuickTest™ System - Full Filtration for All LVPs, Including Emulsions			
Order No.	**Description**	**Shelf Life/Months**	**Qty**
QT1000	Contamination tester for use with: • ADComp™ Compounder • Automix Compounder (Clintec) • Autocomp 6™ Compounder • Exacta-Mix™ Compounder (Baxa) • Nutrimix™ Compounder (Abbott)	24	10 Testers 10 100mL Bags of media
QT1100	Contamination tester with universal spike and 18″ extension set	24	10 Testers 10 100mL Bags of media 10 16 ga. Needles
QT2000	Contamination tester for use with: • Any pump set with male luer connector • Repeater™ Pump (Baxa) • Hyperformer™ Compounder (McGaw) • PharmaAssist™ Pump (Excelsior)	24	10 Testers 10 100mL Bags of media
QT3000	Contamination tester for use with: Pinnacle compounder (BBraun)	24	10 Testers 10 100mL Bags of media
QT4000	Contamination Tester for use with: APEX Compounder	24	10 Testers 10 100mL Bags of media

*Shelf life is based on the date of manufacture.

QI Medical Testing Systems & More

QT Micro™ Systems - Full Filtration for Small Volume Sterile Solutions

	Order No.	Description	Shelf Life/Months	Qty
	TM6000	0.22µ Contamination tester, female luer lock inlet, female luer lock outlet, TSB Media	24	10 Testers 10 5cc Syringes of media
	TM6001	0.22µ Contamination tester, female luer lock inlet, female luer lock outlet, FTM Media	12	10 Testers 10 5cc Syringes of media
	TM6100	0.22µ Contamination tester, female luer lock inlet, male luer slip outlet, TSB Media	24	10 Testers 10 5cc Syringes of media
	TM6101	0.22µ Contamination tester, female luer lock inlet, male luer slip outlet, FTM Media	12	10 Testers 10 5cc Syringes of media
	GM0203	Fluid D, 20mL vial, needle/spike septum	12	20 Vials

ChemoTest™ - Hazardous Drug Handling Test Kits

	Order No.	Description	Shelf Life/Months	Qty
	CT9530	Validate the technique of health care workers who manipulate hazardous drugs. Uses fluorescein dye and a UV light to detect breaks in safe technique and effectiveness of hazmat clean up procedures. 3mL and 50mL vials	24	5 Tests

PALL Syringe Filters

	Order No.	Description	Qty
	HP1002	0.22µ filter, 25mm, sterile, female luer lock inlet, male luer lock outlet, hydrophilic	50 Filters/CS
	PG005	Bubble Point Tester for use with syringe filters, 0-100psi range	1 Tester/CS

*Shelf life is based on the date of manufacture.

CONTEC®

Contec Wipes Designed that Exceed USP Standards

Contec Critical Environment Supplies

Critical supplies for your critical environment, including prep and tack mats, disposable mesh foam sponges, and an essential hazardous drug spill kit

CONTEC®

Clean Scrub™ Sponge (Disposable mesh sponge with foam core)

- Textured polyester mesh removes heavily soiled contamination from surfaces
- Compatible with a wide range of disinfectants

Order No.	Size	Qty
VKSC0004	5"x3"x0.6"	48 each/CS

Contec Healthcare Essential HD Spill Toolkit (for up to 1000mL)

- Activated charcoal spill pads begin chemical deactivation of spills, absorbs, and renders liquid drug unrecoverable, enhancing the safety of workers absorbing up to 1000mL per pad
- Integrated Chemo Bio-Wipe bag safely contains macro spill components for later disposal in RCRA* container
- Plastic scoop and rigid container conveniently facilitate powder spill cleanup and containment

Order No.	Qty
HCSK0001	2 kits/CS

Irradiated Bucket Liners

- 4 mil polyethylene; fits 5 gallon, 6.5 gallon, 7 gallon
- 2/bag, 20 bags/case

Order No.	Size	Qty
BKTBAG	34"x24"x.004"	40/CS

Contec Prep Mat - Contaminaton Control Mat

- Low-lint construction; absorbent and barrier layers
- Lot number on inner bags for traceability
- Available irradiated and nonsterile

Order No.	Description	Size	Qty
HCPD0001	Contec prep mat	16"x21"	600 each/CS
HCPD0005	Contec prep mat. Irradiated	16"x21"	600 each/CS
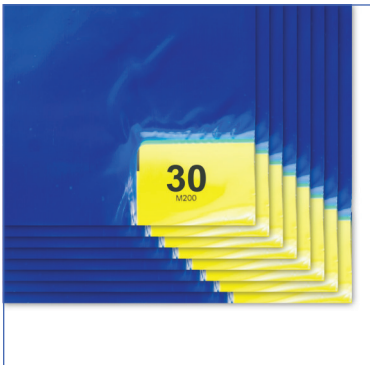

Contec Tack Mat - Contaminaton Control Flooring

- Placed immediately before the entrance to controlled areas to reduce the introduction of contamination
- Thirty peelable layers for convenience
- Multiple sizes are available
- Frames are an optional way to avoid exposing the floor to adhesives

Medipak UVLI® Covers and Bags for UV Light-Sensitive Drug Protection

Medipak

- Using Genuine UVLI® Covers and Bags is a cost-effective solution to protect liquid drugs administered intravenously, or solid drug transit from the harmful effects of UV light

- Available in 13 different sizes

- Allow for the administrator to read through the bag, eliminating the need to lift the cover to check levels and labels

- Talk to your sales rep about product programs and availability

Available Colors

Semi-transparent **Amber** UVLI™ covers make it easy to read labels and levels

Semi-transparent **Green** UVLI™ covers make it easy to read labels and levels
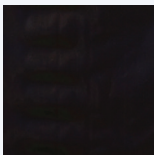

Black UVLI™ covers block 98% or more of light transmission and are nearly opaque
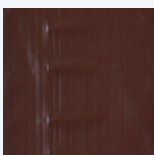

Brown UVLI™ covers block 99% or more of light transmission and are opaque
